

Lung CT Protocol: FORCE
Completion Form

articipant ID #:					Acrostic:					
Technician ID:			[Date	: Manth		/	Vo		

SECTION A

1. Does the participant's Lung CT Protocol FORCE Completion Form in REDCap display "DO NOT PERFORM LUNG CT"? Con	าfirm by
reviewing the form in REDCap.	

- O Yes STOP. Do not perform any CT scan.
- No Continue
- 2. Did participant consent to the lung CT?
 - O Yes Continue
 - O No **STOP.** Do not perform any CT scan.
 - O Refused (after consenting) STOP. Do not perform any CT scan.
- 3. Is the participant registered in the PVS software?
 - O Yes **──── Continue**
 - O No **STOP.** Do not perform any CT scan until participant is registered in PVS Software.

SECTION B: CT Scanning Protocol (3 scans) START OF SECTION B

START OF SECTION B

Scan 1: CT at full-inspiration (TLC)

Scan performed:

O No	─	Reason:	
•			

Is actual TLC DLP + estimated FRC DLP more than 290 mGy*cm?

- O No Continue to Scan 2
- O Yes DO NOT CONTINUE. END OF STUDY.

Lung CT Protocol: FORCE Completion Form

Scan 2: CT at relaxed exhalation (FRC)		
Scan performed:		
O No — Reason:		
O Yes — Actual DLP:		
O Ves DO	ntinue to S	
Scan 3: CT at full-exhalation (RV)		
Scan performed:		
O No		
O Yes — Actual DLP:		
Quality of performed scans:	Yes	No
Followed breathing instructions for all performed scans	0	0
Motion artifact on any performed scan	0	0
Inclusion of whole lung on all performed scans	0	0
Alarm findings (e.g., large mass, large effusion):		
O Yes → If yes, describe:		
Unexpected event:		
O No		
○ Yes If yes, specify: □ Fainting episode	9	
☐ Other:		

END OF SECTION B – DO NOT COMPLETE ANY OTHER CT SCANS FOR THIS STUDY

The following alert was reported by the lung CT Reading Center:

List alert reported in the Lung CT Alerts Form or None

Was the alert reported to the Participant?
